Epoxy Systems for Coatings. Hexion offers a broad array of epoxy resin system options – lower VOC waterborne and high solids systems, as well as conventional systems – for various coatings applications. We offer specialized epoxy resin systems, which can be used as starting points for your formulation development, in the following areas: Concrete and masonry coatings; Protective coatings ...

Epoxy System Recommendations for Coatings

Bottom paints are available in a variety of formulations. Most bottom paint systems are compatible with epoxy and can be applied directly over a prepared epoxy barrier coat. If you are unsure of compatibility or have curing or adhesion problems with a specific bottom paint, use only a primer recommended for that bottom paint over the barrier coat. Follow the recommendations given for ...

Floorsaver Epoxy Floor Paint is a two part epoxy resin supplied as a tin of resin and a tin of curing agent. Once the contents of the two tins have been mixed together, a reaction takes place which causes the product to cure. This means that one 5L tin can ' t be used for 2 coats. It will cover 30m² with one coat, but if you have for example, 15m², you can ' t use half the 5L tin for the ...
