In this alarming book, reporter Jayna Davis tells of her amazing journey leading from the smoking
rubble of the Murrah Federal Building to the sleazy haunts of John Doe #2, the mysterious Middle East
suspect who the Justice Department was at first desperate to find?then insisted never existed. With a
reporter's practiced skill, Jayna Davis unscrambles the convoluted and distorted facts of the Oklahoma
City bombing to present a compelling case that proves Timothy McVeigh and Terry Nichols did not act
alone and in fact worked in tandem with Middle East connections that lead directly to Saddam Hussein's
personal army. Ten years after the tragic April 19 bombing, this revised edition of the controversial
book that captured the attention of the 9/11 Commission offers new information and a new afterword that
covers the Iraq War, the verdict in the Nichols state murder trial, and recent confirmation of Al-Qaeda
General Al-Zawahiri's visit to OKC to approve the bombing.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world.

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used
vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice

possible from cars and trucks of the past 25 years.

Launched 35 years ago, the 2007 edition of the New Cars and Minivans has been restyled to present more current information in a user-friendly manner. This guide tells you when to buy, sell, or hold onto a vehicle and why price rarely guarantees reliability (beware of 'luxury lemons'). Hard-nosed ratings, true fuel-consumption figures, and which safety features are unsafe, are all found in this year's guide, as well as: Dealer markups for each model; cutting the freight fee The best and worst options; whose warranty is the best Which 2006s are butter buys than a 2007 Sample compliant letters that work

Irregular news releases from the National Highway Traffic Safety Administration.

This compendium of everything that's new in cars and trucks is packed with feedback from Canadian drivers, insider tips, internal service bulletins, and confidential memos to help the consumer select what's safe, reliable, and fuel-frugal.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." – The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.
