Screaming on a roller coaster, dizzy in a roundabout, lost on a road trip - does that sound familiar? Many of us live our lives as if we are on a wild ride all the time making the peace we so desire impossible to find. This problem isn't new! It's the same struggle three sets of characters faced in the ancient story of the Magi.

A circular track may be flat or hilly. Riding on the track is a big wheel sized larger than a rider compartment. The rider compartment is supported out bound from the big wheel's axle. The big wheel's inbound axle is attached to a radius arm which is powered by a conventional rotating hub. The radius arms are pivotally connected to the hub to allow an up and down movement on a hilly track.

Roller coaster: The roller coaster is an amusement ride developed for amusement parks and modern theme parks. LaMarcus Adna Thompson obtained a patent regarding roller coasters on January 20, 1885, which were made out of wood, but this patent is considerably later than the "Russian mountains" described in the article.

I always wanted to go again. You know, it was just so interesting to me that a ride could make me so frightened, so scared, so sick, so excited, and so thrilled all together! Some didn't like it. They went on the merry-go-round. That just goes around. Nothing. I like the roller coaster. You get more out of it.

Round About - Roller Coaster DataBase

Freestyle Music Park (previously known as Hard Rock Park), was a short-lived music themed amusement park built on 55 acres (22 ha) of a 140-acre (57 ha) property located in Myrtle Beach, South Carolina. The park was located at the intersection of US 501 and the Intracoastal Waterway. It included part of the former Waccamaw Factory Shoppes in Fantasy Harbour, and used Mall 3 as its headquarters.

Freestyle Music Park - Wikipedia

A roundabout ride comprising: a track having a constant radius length from a central hub; said central hub having a plurality of radius arms affixed to the hub; said central hub having a power source to rotate the central hub; each radius arm having an outbound end affixed to an axle of a wheel which rides on the track; said axle of said wheel having an axle assembly including an extension which supports a rider carriage; said axle assembly further comprising a gimbaled support for the rider ...
