Covers all aspects of astrology, including interpretation and analysis of all the signs and planets along with information on applying psychological methods to astrology.

This edition includes Liber 777, Gematria (from Equinox Volume 1, Number 5), and Sepher Sephiroth (from Equinox Volume 1, Number 8).

Why is astrology both so appealing and so maligned? Orthodox religion proclaims it to be heretical and demonic. Philosophers consider it to be superstitious and uncritical. Scientists object to it as being presumably unverifiable. All these objections, however, are self-serving. This is not to say that such objections should be disregarded, but the mental attitudes from which they emanate ought to be evaluated within the context of the larger debate to which they contribute. Using the controversial figure of "The Wickedest Man in the World" -- Aleister Crowley -- as a focal point, this book provides a tremendous contribution both to the body of available data and to the manner in which such data may

In *The Weiser Concise Guide to Practical Astrology*, Priscilla Costello introduces the reader to the basic principles of modern astrology and unveils the secrets of this elegantly developed language of symbols. Costello shares with the reader both the philosophical and esoteric world view of astrology, while exploring the meanings of signs, planets, houses, and aspects on many levels, as well as its connection to psychology, religion and spirituality, and related esoteric studies. *The Weiser Concise Guide to Practical Astrology* serves as both a primer for the new student of astrology and a handy reference for the more seasoned practitioner. As complete as it is concise, this course of study delves deeply into the history and true spirit of astrology, making it accessible to all.

Aleister Crowley and Dion Fortune were two of the most controversial and powerful occultists of the 20th century. Crowley was regarded by many as a creature of the night, albeit one whose soul was streaked with brilliance; Fortune was viewed as one of the Shining Ones, who nevertheless wrestled with her own darkness. Between them they produced some of the best books on magick ever written, and their influence upon contemporary magicians has been profound.

this unusual and provocative book draws upon unpublished material to reveal little-known aspects of Crowley and Fortune's relationship, and their role as harbingers of sweeping cultural changes--foreshadowing the women's movement, the sexual revolution, and 1960s counterculture--as well as other surprising influences upon our present culture.

The scientific, historic, and popular basis behind the ancient art of astrology is explored in this comprehensive reference. The guide also includes a table of astrological glyphs and abbreviations, a section on casting a chart, and a chapter that explains and interprets every planet in every house and sign.

new Hebrew words and names, as well as the terms of Freemasonry, the entities of the Cthulhu mythos, and the Aurum Solis spellings for the names of the demons of the Goetia.
