London 1996: Alexander McQueen took over the Hawksmoor masterpiece Christ Church in London's East End for what was quite possibly the greatest fashion show on Earth. A candle-lit, cruciform catwalk with a backdrop of stained-glass windows set the tone for an extraordinary collection. Lace sat against chiffon and rubbed shoulders with couture and club-culture clothing and digital print. Dante was the seminal collection that would resonate throughout Alexander McQueen's career. This book features unique photographs shot behind the scenes, with raw, unseen pictures of the designer, models and clothes. The fashion creatives who worked with McQueen to make the show such a success recall this pivotal time in the designer's career and reflect on what made Dante truly groundbreaking. Newly created imagery of clothes shown on the catwalk gives an insight into why this collection was so special.

From Jack the Ripper Stalks His Victims, his 1992 graduate collection, to Plato's Atlantis, the last show before his death in 2010, Lee Alexander McQueen was as celebrated for the exquisite tailoring, meticulous craftsmanship, and stunning originality of his designs as he was notorious for his theatrical—and often controversial—runway shows. McQueen found inspiration for his avant-garde collections everywhere: his Scottish ancestry, Alfred Hitchcock movies, Yoruba mythology, the destruction of the environment—even the fashion industry itself. Whatever his inspiration, however, McQueen's concept for his runway show came first and was crucial to the development of the collection. Every show had a narrative and was staged with his characteristic dramatic flair. Highland Rape featured disheveled models smeared with “ blood ” staggering down the runway in town clothes. In Scanners, two robots sprayed paint on a model trapped on a spinning platform. In Widows of Culloden, a hologram of supermodel Kate Moss held center stage. Other McQueen shows

staged models walking through water, drifting snowflakes, rain, and wind tunnels; pole-dancing in garish makeup at a carnival, playing living pieces in a bizarre chess game, and performing with trained dancers in a Depression-era-style marathon. Illustrated throughout with stunning photography and liberally sprinkled with quotations from McQueen and those who knew him best, Alexander McQueen: Evolution is the story of the designer 's thirty-five runway shows and the genius behind them.

"John Galliano's ascent in the world of fashion design was swift and filled with acclaim for his bold, quick-witted sensibility and his theatrical flair. He became head designer for Givenchy in 1995, and then for Christian Dior in 1996, and directed his own fashion label between 1996 and 2011. Currently creative director of the Paris-based fashion house Maison Margiela, Galliano has fascinated the fashion world with his often outrageous and whimsical creations, including some of the most memorable collections of the 20th century: from the iconic Suzie Sphinx collection to luxurious and edgy reinventions of Chinese, Peruvian, Yemeni, or Mongolian costumes. Unfolding chronologically with short texts by fashion expert Claire Wilcox introducing each collection, 'John Galliano: Unseen' captures the designer's mesmerizing creations for his eponymous label (including rich and idiosyncratic details) and the intense backstage work of Galliano's trusted collaborators"--Publisher's description.

Published in conjunction with the exhibition of the same name on view at The Metropolitan Museum of Art, New York, Ma6 4-July 31, 2011.
