An in-depth look at the institutionalization of alternative dispute resolution (ADR) processes in the federal and state regulatory arenas over the past twenty-five years, this volume showcases the value of these processes and highlights the potential for their expanded application and growth. It describes ADR techniques, how to use them, and how to integrate them into existing processes, using examples from the Federal Energy Regulatory Commission and three state utility regulatory commissions. The book recounts ADR successes, recognizing that traditional litigative methods may not always meet the needs of agencies, the parties, or the public. Institutionalizing these processes requires a systematic commitment to different approaches to problem-solving and, ultimately, cultural change. The authors spearheaded initiatives to integrate these processes and skills at the federal level. Drawing from valuable insights gained from their experience, the authors introduce a versatile new ADR system design model, the Voices of Value, which aims to enhance input, creativity, and effectiveness in regulatory and other public arenas as well as the private sector.

Today, Alternative Dispute Resolution (ADR) has gained international recognition and is widely used to complement the conventional methods of resolving disputes through courts of law. the American justice system: the need for better-quality processes and outcomes in the judicial system; and the need for efficiency of justice. ADR was transplanted into the African legal systems in the 1980s and 1990s as a result of the liberalization of the African economies, which was accompanied by such conditionalities as reform of the justice and legal sectors, under the Structural Adjustment Programmes. However, most of the methods of ADR that are promoted for inclusion in African justice systems are similar to pre-colonial African dispute settlement mechanisms that encouraged restoration of harmony and social bonds in the justice system. In Tanzania ADR was introduced in 1994 through Government Notice No. 422, which amended the First Schedule to the Civil Procedure Code Act (1966), and it is now an inherent component of the country's legal system. In recognition of its importance in civil litigation in Tanzania, ADR has been made a compulsory subject in higher learning/training institutions for lawyers. This handbook provides theories, principles, examples of practice, and materials relating to ADR in Tanzania and is therefore an essential resource for practicing lawyers as well as law students with an interest in Tanzania. It also contains additional information on evolving standards in international commercial arbitration, which are very useful to legal practitioners and law students.
