This book is designed to help teachers implement the power of TI-nspire (Touchpad version) in the teaching of Algebra I. Keying sequences are provided with step-by-step instruction. Worked examples and comprehensive exercise sets with complete solutions are provided. Screen displays enable students to connect their work on the handheld to examples in the text. This book exposes students to multiple representations of concepts using numerous experiences with graphs, spreadsheets and calculator commands to solve real-world problems. Together with its sequel, Algebra I with TI-nspire: Semester 2 these books provide a full program in Algebra I as defined by the new Common Core State Standards for Mathematics.

A second course in linear algebra for undergraduates in mathematics, computer science, physics, statistics, and the biological sciences.

"The text is suitable for a typical introductory algebra course, and was developed to be used flexibly. While the breadth of topics may go beyond what an instructor would cover, the modular approach and the richness of content ensures that the book meets the needs of a variety of programs."--Page 1.
