The overall goal of this Assessment Technologies Institute, LLC (ATI) Content Mastery Series module is to provide nursing students with an additional resource for the focused review of "Fundamentals for nursing" content relevant to NCLEX preparation and entry level nursing practice.

Prepare for the ATI TEAS nursing school entrance exam with practice questions for all concepts and tips from experts.

Essential for NCLEX, course and competency review, this resource is a complete, concentrated outline of nursing fundamentals. Each chapter contains objectives, pre- and post chapter tests with comprehensive rationales, vocabulary review, practice to pass exercises, critical thinking case studies, as well as NCLEX alerts and new test-taking strategies. Content includes all of the "need-to-know" facts covering the nursing process, physical assessment, communication, professional standards, health promotion through the lifespan, and more.

Assure your mastery of medical-surgical nursing knowledge while honing your critical thinking and test-taking skills. The 3rd Edition of this popular resource features over 2,300 questions (including 550 alternate-format questions) that reflect the latest advances in medical-surgical nursing and the latest NCLEX-RN® test plan. They organize the seemingly huge volume of information you must master into manageable sections divided by body systems and specific diseases

Miller Test Prep's study guide for the ATI TEAS 6 exam is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. We compiled their decades of experience helping students just like you into this study guide, so you pass the TEAS 6 first time.

This review module is a component of the Comprehensive Assessment and Review Program and is designed to be used in conjunction with content area exams. It includes key points and critical thinking exercises (with answer keys) for nursing management for a variety of conditions.

Infection Prevention and Control at a Glance is the perfect companion for study and revision for pre-registration nursing and healthcare students, as well as qualified nurses and medical students. Infection prevention and control is one of the key five 'essential skills clusters' that is incorporated into all pre-registration nursing programmes. This highly visual and dynamic book is a thorough resource for nurses wanting to consolidate and expand their knowledge of this important part of nursing. Written by experienced infection prevention and control specialist nurses, it provides a concise and simple approach to a vast and complex subject, and equips the reader with key information in relation to various aspects of infection prevention and control practice. Provides a snap-shot of the application of infection prevention and control in practice and the key infections affecting patients in both acute and primary care A uniquely visual and accessible overview of a topic of relevance to all nursing staff Includes key points for clinical practice, patient management, and signposting of key national guidance documents and websites Available in a wide-range of digital formats - perfect for 'on the go' study and revision
