Atlas of Bracketless Fixed Lingual Orthodontics - Media ...

This atlas illustrates a bracketless technique for resolving malocclusions in the permanent dentition that provides invisible orthodontic treatment with minimal patient discomfort. This innovative method, characterized by the use of orthodontic wires directly bonded to the lingual surfaces of the teeth, was first used to treat relapse of anterior misalignments and tooth crowding in the anterior dentition.

(PDF) Lingual orthodontic education: An insight

This innovative technique has been described in a book published by Dr. Anna Mariniello and Dr. Fabio Cozzolino for an international specialistic editor (Atlas of Bracketless Fixed Lingual Orthodontics, Quintessenza Edizioni). The adhesive technique is the same used for conventional devices with brackets (both vestibular and lingual); once the therapy is completed, the appliance is removed and the dental surfaces recover the same aspect they had before the treatment, without any change of ...
