With its Personalized Pressure Technology, the Zimmer ATS 4000 is designed to calculate and apply the minimum amount of tourniquet pressure to the patient needed to occlude a limb.

File Type PDF Ats 3000 Manual

The Limb Occlusion Pressure (L.O.P.) eliminates the static tourniquet pressure of 300-350 and is effective at reducing the tourniquet pressure on a patient.

time presented in colour throughout, this book enables the user to manage a patient in an ICU setting effectively without recourse to large text/reference works or specialized monographs. This thoroughly revised and updated edition reflects the best and most current practice from leading centres in Australia, the UK and Western Europe. Although primarily intended for the trainee and practitioner in intensive care, nurses and other allied health professionals will find that this is an invaluable tool in helping to deal with a broad spectrum of conditions

File Type PDF Ats 3000 Manual

encountered in the ICU. Represents a consensus of practice/standard of care in Australia/NZ, UK and Europe. Treatment guidelines are authoritative since they follow those that are Recommended/laid down by Professional societies. Comprehensive, covers all important areas of intensive care medicine. Provides a single resource that will cover everything that a user will need to know during the course of an ICU rotation. No need to refer to a larger textbook. Information on management and treatment of conditions is balanced by pathophysiological and pharmacological background.
