Five reasons I use Squarespace instead of other website ...

I'm using Squarespace to design a website for a client, because it's easy for him to make changes and looks "good". I have done about 20 websites with Wordpress and, it was not easy but i could do everything i wanted. But with Squarespace it's a nightmare to do anything a bit out of the ordinary- for example to add a table, or an iframe.

Squarespace Reviews | Read Customer Service Reviews of www ...

However, Squarespace isn't going to be right for everyone. While the non-technical interface is quite intuitive, there are restrictions to Squarespace that can make it harder to get used to for some builders. Additionally, Squarespace seems to be better for people with very little technical confidence. You can't really get the scalability you need with Squarespace if you know how to build more advanced sites online.
