CoursePoint The same trusted solution, innovation and unmatched support that you have come to expect from CoursePoint is now enhanced with more engaging learning tools and deeper analytics to help prepare students for practice. This powerfully integrated, digital learning solution combines learning tools, case studies, real-time data and the most trusted nursing education content on the market to make curriculum-wide learning more efficient and to meet students where they're at in their learning. And now, it's easier than ever for instructors and students to use, giving them everything they need for course and curriculum success! Coursepoint includes: Engaging course content provides a variety of learning tools to engage students of all learning styles. A more personalized learning approach gives students the content and tools they need at the moment they need it, giving them data for more focused remediation and helping to boost their confidence and competence. Powerful tools, including varying levels of case studies, interactive learning activities, and adaptive learning powered by PrepU, help students learn the critical thinking and clinical judgement skills to help them become practice-ready nurses. Unparalleled reporting provides in-depth dashboards with several data points to track student progress and help identify strengths and weaknesses. Unmatched support includes training coaches, product trainers, and nursing education consultants to help educators and students implement CoursePoint with ease.

Equip yourself with the tools to better understand and apply research to your everyday practice with *Nursing Research in Canada: Methods, Critical Appraisal, and Utilization*, 4th Edition. Written by an all-star team of educators and research experts from the U.S. and Canada, this thoroughly updated text is the perfect resource to help ground you in the processes behind nursing research and evidence-informed practice. The fourth edition has been thoroughly updated and refocused to better match the needs of the nurse who will read and apply research rather than conduct research. This text also features new research examples that reflect the most current Canadian studies, fresh vignettes, easy-to-use navigation tools, enhanced readability, and well-balanced coverage of both qualitative and quantitative research methods. It's a must-have resource for both undergraduate and graduate nursing students alike! Balanced but distinct coverage of both the qualitative and quantitative approaches to nursing research acquaints you with the processes behind research and evidence-informed practice. Complete, high-quality research examples, including three sample critiques, demonstrate how to apply the principles outlined in the text to published quantitative and qualitative research studies. Research Vignettes introduces you to real-world practitioners of nursing research and help bridge the gaps among clinical research, academia, and clinical practice. An updated design improves the legibility of content dense pedagogical features - particularly tables and boxes. Effective learning aids in every chapter include Key Terms, Learning Outcomes, ResearchHints, Evidence Informed Practice Tips, Appraising the Evidence, Critiquing Criteria, Critique of a Research Study, Critical Thinking Decision Paths, Critical Thinking Challenges, and Key Points. NEW! All-new research examples and Vignettes have been added throughout to demonstrate the most current high-quality published studies, and to exemplify the work on prominent nurse-researchers. NEW! Content on mixed-methods research along with secondary analysis has been added to the chapter on nonexperimental
