Forrest Fenn's treasure found in New Mexico

The Fens, also known as the Fenlands, is a coastal plain in eastern England. This naturally marshy region supports a rich ecology and numerous species, and helps absorb storms. Most of the fens were drained centuries ago, resulting in a flat, dry, low-lying agricultural region supported by a system of drainage channels and human-made rivers (dykes and drains) and automated pumping stations.

The Fenn Treasure was a cache of gold and jewels that Forrest Fenn, an art dealer and author from Santa Fe, New Mexico, hid in the Rocky Mountains of the United States. It was found approximately a decade later in 2020 in Wyoming, by an anonymous treasure hunter later revealed to be former journalist and medical student Jack Stuef. In attempting to honor what he perceives to be Fenn's wishes ...
