"You did the unthinkable Weston. You turned him down initially. Honey that's practically an open invitation to chase," Delphine explained. "I know. Trust me I know that men like Jaxson Halford are used to women chasing them, and to having those he rains his attention on flock to him like a sheep to slaughter. And I can't stand men like that. But I thought he was different. I thought he — I mean I thought his pursuit was sincere. We talked Delphine. He opened up to me; told me things you won't find when you Google him. I didn't think you could fake that kind of sincerity, but obviously you can. You're right, apparently one of the reasons he was so interested in me is because I didn't immediately cave in to him. But it wasn't a game for me; if only I'd known it was to him." "So do you really think he was only interested in a casual fling? Are you sure that it wasn't more?" "Well then he's really good, because he fooled you too," Weston said. "He can't explain away the woman I saw in his arms or the fact that he's been with her for three years. In spite of those facts though, he made it quite clear that I'd be welcome to his bed at any time. But I'm no one's bedpost notch. I want more." "Ahhh, more — if we women could just give up wanting more, we could find perfect relationship any time we wanted," Delphine laughed. "But let me play devil's advocate and give the scumbag the benefit of the doubt for a second. "There's no room for benefit of the doubt, Delphine. I know what I saw. I know what I heard. Jaxson is involved with another woman, and has been for quite some time. I can't believe I didn't pick up on it." "Hear me out Weston. I've got "bullshit radar" and I didn't sense any with Jaxson. I saw the way he had you pinned up against the wall in your office couple of weeks ago. I thought you all were gonna go at it right then and there. I could feel the heat you two were generating all the way out in the hallway." "I just want to forget that I ever allowed myself to get involved with him," Weston groaned. "But it's not that easy and you know it," Delphine warned. "You're still drawn to him and the real battle here is not him or another woman. The real battle is with yourself Weston." ### The real battle is with yourself Weston. The real battle is with yourself Weston. Weston replayed the words over and over again in her head as she left the office later that day. Their truth rang so deeply in her soul that she could no longer deny it. She was head over heels in in love with the philandering Jaxson Halford, the very man whose contract her company depended on for survival — and there was nothing she could do about either fact right now.

PROLOGUE Accused of using his well-known import/export company as a front for an illegal smuggling operation, Halston Wellington, II was not only faced with losing his three-generation business, he was faced with losing his freedom — and something even more valuable, he realizes upon meeting international criminal attorney Candace Younger. *** "And what is that Halston? What do you want?" Candace asked, her light-brown gaze holding his steamy emerald one. Was the candlelight playing tricks, or did the color of his eyes change with his emotions — like that mood ring she remembered getting as a retro holiday gift as a child? "Even though I asked you first, I will answer first," he said. "Would it surprise you to know that I want a family?" "Would it surprise you to know that what I want most of all Candace, is you?" *** Lying under him, Candace curved her body into his. "Mmm," she cooed as her palms glided along the smoothness of his shoulders and back. "Adios mio you're so beautiful," he whispered into the curve of her neck. "I want you so very much." Candace closed her eyes, silently begging him for the ultimate joining of their bodies. *** They could have had it all ... if only he hadn't betrayed her, she thought. And the part that hurt the most was -- he'd planned his betrayal from day one. And oh how expertly he'd carried it out. He'd played her like a violin, Shakespearean-like language and all: "I was destined for thee, as you were for me. Maybe, just maybe, we were destined to be." It was so real. How could it all have been such a lie? *** Candace found solace in her work, especially after losing her beloved boyfriend Tom to cancer three years ago. She'd slowly dipped her toes back into the dating pool, but hadn't come close to clicking with anyone until she met the magnetic Halston Wellington, II. Worldly, intelligent, successful and intimidatingly handsome — he was everything a woman could want in a man. It didn't make sense that he was single — until she discovers the real reason for his interest in her. He was right, they were destined to be, but was it for love, or was he using her for something much more nefarious? ### Relevant Search Terms: interracial romance, bwvm romance, multicultural romance, african american romance, steamy romance, short story romance, womens fiction, black love

PROLOGUE "Penny for your thoughts," the deep, gravelly voice said. Siren jumped and screamed. "You scared the living daylights out of me!" "I'm sorry," Renner said, breathless and shirtless, as he came to stand beside her. "I didn't mean to. I assumed you heard me puffing up the hill," he continued, sucking in deep breaths. "That one's quite a bear." "Yes, yes it is," Siren agreed, fighting to keep her tone even. They stood looking at each other, an awkward pause causing Siren to turn her head. It was practically impossible not to stare at the sweaty nakedness of his chiseled torso she knew every ridge of it from studying it yesterday morning as he worked out. She wondered if he recognized her. He didn't seem to. "I'm Renner. Renner Hayes," he said, holding out his hand to her. "Your new neighbor." Siren colored. Renner smiled, showcasing brilliantly white teeth behind sensuously kissable lips. The small indentation in his chin and the sculpted groove of his cheekbones were more pronounced when he smiled. A twinkle lit up his greenish-blue eyes. God he was gorgeous! "And you are?" he asked as Siren stood openly gawking at him. She couldn't help it. "Siren Carter," she responded, holding out her right hand. "Siren?" he repeated, taking her hand. "How apropos." *** "Are you a psychic, by chance?" he asked, his hand reaching out to touch her forearm to turn her to him. "I have been accused of it, but no, I'm not psychic. I just choose to pay attention to people, which is a lost art in today's world." "I agree," he said, his gaze holding her hostage. "And what else do you see Siren? What other insights have you to share?" he said, lowering his head to mere inches from hers. She could feel his breath on her already warm skin. There was a challenge in those amazing eyes, which were more green, than blue when he focused she noticed, the irises flecked with gold. *** Siren wasn't sure if it was a character flaw, or because most of the men she'd dated hadn't deserved her fidelity, but she'd made a point to cheat on every man she'd ever been with until she met and married Michael. She had promised herself when she accepted his proposal that she never would, and she hadn't. And to her surprise, it hadn't been hard. That is, until she laid eyes on "Her Neighbor's Husband" ### Relevant Search Terms: interracial romance, bwm romance, multicultural romance, african american romance, steamy romance, short story romance, womens fiction, chicklit, kindle romance, short fiction

In the United States miscegenation is not merely a subject of literature and popular culture. It is in many ways the foundation of contemporary imaginary community. *The Romance of Race* examines the role of minority women writers and reformers in the creation of our modern American multiculturalism. The national identity of the United States was transformed between 1880 and 1930 due to mass immigration, imperial expansion, the rise of Jim Crow, and the beginning of the suffrage movement. A generation of women writers and reformers—particularly women of color—contributed to these debates by imagining new national narratives that put minorities at the center of American identity. Jane Addams, Pauline Hopkins, Onoto Watanna (Winnifred Eaton), María Cristina Mena, and Mourning Dove (Christine Quintasket) embraced the images of the United States—and increasingly the world—as an interracial nuclear family. They also reframed public debates through narratives depicting interracial encounters as longstanding, unacknowledged liaisons between white men and racialized women that produced an incestuous, mixed-race nation. By mobilizing the sexual taboos of incest and miscegenation, these women writers created political allegories of kinship and community. Through their criticisms of the nation's history of exploitation and colonization, they also imagined a more inclusive future. As Jolie A. Sheffer identifies the contemporary template for American multiculturalism in the works of turn-of-the-century minority writers, she uncovers a much more radical history than has previously been considered.
