In *The Calorie Myth, Exercise Less, Lose Weight And Live Better* 1st Edition, 12/2013 Jonathan Bailor exposes the fundamental flaw upon which the diet industry is built and offers a new equation: eat More + exercise Less = weight loss. If calorie math added up, 100 calories of vegetables = 100 calories of candy. That doesn't seem right—because it's not. While some calories fuel weight loss, others work against us.

On the opposite side, overfeeding studies, again, have shown equivalent amounts of fat gain on low-carb versus low-fat diets. So, it does actually seem to be largely the case in that context of the carb to fat ratio that for the most part, a calorie is a calorie. Jonathan Bailor: It is definitely the case in what I've seen. That the discrepancy between fat and protein and the discrepancy

"In The Calorie Myth, Bailor demolishes the dietary and nutritional nonsense that has contributed to the epidemics of obesity and diabetes in our country. In its place he erects a simple program anyone can follow that is based on solid science and common sense. The Calorie Myth is likely to be the last diet book you will ever need to buy. Unless you enjoy failed diets, do the right thing—the healthy thing—and read this book."
