Most Americans are unaware of this fact or the physical injuries sustained by countless school children who are hit with objects by school

personnel in the name of discipline. Therefore, Corporal Punishment in U.S. Public Schools begins by summarizing the legal basis for school corporal punishment and trends in Americans' attitudes about it. It then presents trends in the use of school corporal punishment in the United States over time to establish its past and current prevalence. It also provides results from a policy analysis that examines the effect of state-level school corporal punishment bans on trends in juvenile crime. It concludes by discussing potential legal, policy, and advocacy avenues for abolition of school corporal punishment at the state and federal levels as well as summarizing how school

The research presented in this volume demonstrates that disciplinary policies and practices that schools control directly exacerbate today's profound inequities in educational opportunity and outcomes. Part I explores how suspensions flow along the lines of race, gender, and disability status. Part II examines potential remedies that show great promise, including a district-wide approach in Cleveland, Ohio, aimed at social and emotional learning strategies. Closing the School Discipline Gap is a call for action that focuses on an area in which public schools can and should make powerful improvements, in a relatively short period of time. Contributors include Robert Balfanz,

An acclaimed economist reveals that school integration efforts in the 1970s and 1980s were overwhelmingly successful -- and argues that we must renew our commitment to integration for the sake of all Americans We are frequently told that school integration was a social experiment doomed from the start. But as Rucker C. Johnson demonstrates in *Children of the Dream*, it was, in fact, a spectacular achievement. Drawing on longitudinal studies going back to the 1960s, he shows that students who attended integrated and well-

funded schools were more successful in life than those who did not -- and this held true for children of all races. Yet as a society we have given up on integration. Since the high point of integration in 1988, we have regressed and segregation again prevails.
