Endorsed by Cambridge Assessment International Education to support the full curriculum framework. Spark engagement and understanding with an investigative and experimental approach and the strongest emphasis on Scientific Enquiry. - Benefit from a flexible approach allowing you to teach strands separately or as combined science with topics organised by subject - Help students demonstrate an investigative and experimental approach - Cater for all students' needs with a course written to ensure language is appropriate for students from around the world Fully matched to the Cambridge Lower Secondary Science Curriculum Framework, the Cambridge Checkpoint Tests and the Cambridge Progression Tests.

Build confidence and understanding throughout the year with hundreds of additional practice questions. This Workbook supports our bestselling Checkpoint series, with exercises specifically matched to the Cambridge Progression tests and the Checkpoint tests. - Develops understanding and builds confidence ahead of assessment with exercises matched to the tests - Ensures a thorough understanding of all aspects of the course by following the structure of the relevant textbook - Saves planning time with exercises that are suitable for use in class or as homework This Workbook is matched to the Cambridge Secondary 1 Curriculum Framework and follows the structure of the equivalent Checkpoint Student's Book exactly. This text has not been through the Cambridge endorsement process.

This volume has three sections, covering biology, physics and chemistry, so teachers can still teach the three sciences separately if they prefer. The introductory chapter includes a new section on scientific enquiry, reflecting the focus of the new framework.

Build confidence and understanding throughout the year with hundreds of additional practice questions. This Workbook supports our bestselling Checkpoint series, with exercises specifically matched to the Cambridge Progression tests and the Checkpoint tests. - Develops understanding and builds confidence ahead of assessment with exercises matched to the tests - Ensures a thorough understanding of all aspects of the course by following the structure of the relevant textbook - Saves planning time with exercises that are suitable for use in class or as homework This Workbook is matched to the Cambridge Lower Secondary Curriculum Framework and follows the structure of the equivalent Checkpoint Student's Book exactly. This text has not been through the Cambridge International endorsement process.

With Checkpoint Science Revision Guide for the Cambridge Secondary 1 test you can aim for the best grade with the help of relevant and accessible notes, examiner advice plus questions and answers on each key topic. - Clear explanations of every topic covered in the Cambridge Secondary 1 Checkpoint Science syllabus - Builds revision skills you need for success in the test - Exam tips written by test setters and examiners giving you their expert advice This text has not been through the Cambridge endorsement process.

This volume has three sections, covering biology, physics and chemistry, so teachers can still teach the three sciences separately if they prefer. The introductory chapter includes a new section on scientific enquiry, reflecting the focus of the new framework.

This Teacher's Resource Book will ensure you can deliver the Cambridge Secondary 1 programme for Science with confidence. It offers detailed support with the practical aspects of the course, and includes plenty of homework activities and worksheets. To help prepare your students for the examination there are sample Checkpoint Tests for use at the end of the relevant stage, with full mark schemes. Biology, Chemistry and Physics are combined in a single handy volume, but the material is in three distinct sections so you can still teach the course as three separate Sciences if you prefer.

Stage 7 is endorsed by Cambridge Assessment International Education. Help learners engage with and fully understand topics they are studying with captivating content following the new Cambridge Lower Secondary Science curriculum framework (0893). - Provide activities to increase learners' subject knowledge and develop the skills necessary to think and work scientifically. - Test learners' comprehension of each topic with questions designed to develop deeper thinking skills. - Embed knowledge and increase learners' vocabulary with whole class and smaller group discussion.

Endorsed by Cambridge Assessment International Education to support the full curriculum framework. Deliver the Cambridge Lower Secondary curriculum framework with confidence using detailed support with the practical aspects of the course. - Save preparation time with plenty of homework activities and worksheets - Prepare your students for the examination with sample Checkpoint Tests for use at the end of the relevant stage, including full mark schemes - Benefit from a flexible approach enabling you the choice to teach the sciences separately or combined
