She is friendless—an outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally able to face what really

You will meet: The ICU staff who learned to communicate with the paralyzed woman - and those who did not bother. The physicians whose visits left her baffled about her own case. The staff and physicians who spoke to her and others who did not recognize her presence. The nurse who tucked Sue tightly under the covers, unaware that she was soaking with perspiration. The nurse who took the time to feed her drop by drop, as she slowly learned how to swallow again. The physical therapist who could read her eyes and spurred her on to move again as if the battle were his own. must try to survive the Allied bombs shattering her neighborhood. Her family faces separations, bombings, hunger, the final fierce battle for Berlin, the Russian invasion, and the terrors of Soviet occupancy. This compelling story immerses readers in the first-hand account of surviving World War II as a civilian. It's a story of trying to maintain stability, hope, and identity in a world of terror and contrasts, and it puts a very human face on the horrors of war, helping readers understand that each casualty of war is a person, not a number.
