~~The V Battalion's primary field agent usually uses the codename Citizen V after the original Citizen V. The original Citizen V was killed by Heinrich Zemo. The second Citizen V was Paulette Brazee Watkins girlfriend who later gave birth to his son John Watkins Jr and married a soldier. Presumably JJ Watkins (John Watkins Jr.) was the third Citizen V. Sometime later JJ's son John Watkins III was Citizen V and was somehow rendered comatose for five years.~~

~~What Cold War-era superheroes reveal about American society and foreign policy Physicist Bruce Banner, caught in the nuclear explosion of his experimental gamma bomb, is transformed into the rampaging green monster, the Hulk. High school student Peter Parker, bitten by an irradiated spider, gains its powers and becomes Spiderman. Reed Richards and his friends are caught in a belt of cosmic radiation while orbiting the Earth in a spacecraft and are transformed into the Fantastic Four. While Stan Lee suggests he cling to the hackneyed idea of radioactivity in creating Marvel's stable of superheroes because of his limited imagination, radiation and the bomb are nonetheless the big bang that spawned the Marvel universe. The Marvel superheroes that came to dominate the comic book industry for most of the last five decades were born under the mushroom cloud of potential nuclear war that was a cornerstone of the four-decade bipolar division of the world between the US and USSR. These stories were consciously set in this world and reflect the changing culture of cold War (and post-cold War) America. Like other forms of popular entertainment, comic books tend to be very receptive to cultural trends, reflect them, comment on them, and sometimes inaugurate them. Secret Identity Crisis follows the trajectory of the breakdown of the cold War consensus after 1960 through the lens of superhero comic books. Those developed by Marvel, because of their conscious setting in the contemporary world, and because of attempts to maintain a continuous story line across and within books, constitute a system of signs that reflect, comment upon, and interact with the American political economy. This groundbreaking new study focuses on a handful of titles and signs that specifically involve political economic codes, including Captain America, the Invincible Iron Man, Nick Fury, Agent of SHIELD, the Incredible Hulk to reveal how the American self was transformed and/or reproduced during the late Cold War and after.~~
