This section of the website is to give short and jargon free instructions in the use of the Clansman range of radios.. Not just a cut and paste of the standard operating manuals, I've tried to put together instructions as relevant as possible to the way we use these in our hobby... PRC-349. the 349 is a very simple, very low power for short range use only. Very popular with Cadets. see ...

Wireless Set No 19 Group Clansman

Clansman is an integrated HF/VHF/UHF communication system with standardised ancillaries spanning vehicles, aircraft and foot soldiers. It represented massive component and equipment design and development programmes. It was intended that Clansman would be in service in the early 1970s. However, the high cost of Clansman gear, the need to stock pile full sets of equipment and components before ...

Clansman is the name of a combat net radio system (CNR) used by the British Army from 1976 to 2010.. Clansman was developed by the Signals Research and Development Establishment (SRDE) in the 1960s, to satisfy a General Staff Requirement (GSR) laid down in 1965. Clansman represented a considerable advance over existing Larkspur radio system, and proved to be more flexible, reliable and far ...

Clansman (military radio) - Wikipedia

Test Kit for all Clansman radios except the PRC-344 which is a UHF rig. One working radio is required to test another. Test Kit 353 cables: £40 Main part of Test Kit 353 includes all cables, test frames, card extenders and pin out box, plus some other bits which you never really use.

Clansman Radios

The Clansman system was developed in the early 70s, and phased out in the late 2000s, seeing service in NI, the Falklands, the Gulf War, Iraq, and Afghanistan. These are a fun bit of history, somewhat cheap, portable, and have a high build quality, with good receive performance, while they last. A nice bonus is that almost all of the accessories such as batteries, chargers, and headgear, are ...
