About the BookRecent industry surveys expect the cloud computing services market to be in excess of \$20 billion and cloud computing jobs to be in excess of 10 million worldwide in 2014 alone. In addition, since a majority of existing information technology (IT) jobs is focused on maintaining legacy in-house systems, the demand for these kinds of jobs is likely to drop rapidly if cloud ...

Resources and economies of scale.

What is cloud computing? A beginner 's guide | Microsoft Azure

One of the challenges facing educators teaching cloud computing concepts is providing students with hands-on experience working in a cloud environment. The challenge, however, is that cloud computing, by its nature, is built around the idea of pay-per-use. You pay for the services or resources that the cloud service providers provide.

Adopting Hands-on Cloud Computing Labs in Your Classroom

Also, not everybody who is interested in the cloud needs to know all the technical details behind AWS, Azure, or Google Cloud. If you (or somebody you know) is a business person, yet wants to learn more about cloud computing, Cloud Computing
