experiences they have missed in a safe and structured way.

## ~~Social Communication Programmes—Integrated Treatment ...~~

This integration approach is an important point of consideration for the future of therapy in that the dynamic of each setting will evolve from being a centre of individually-skilled professionals coming together, to a hive of multi-skilled professionals working under close supervision, utilising therapies they have been upskilled in.

## ~~Transdisciplinary Approach—What Does It Mean?~~

Each method has a meaningful impact on hearing loss, so by integrating them we have a comprehensive method in order to facilitate communication and language learning. To achieve this goal, the article offers methods and techniques to perform AVT and MT integrated with PT leading to an approach which offers all advantages of these three types of therapy.
