In *Consent of the Networked*, Rebecca MacKinnon becomes the modern day John Locke calling on those who control the code and architecture of the networks to understand, take responsibility and acknowledge the requirement for the *Consent of the Networked*. *Consent of the Networked* will become the seminal book defining this fundamentally new and important way to think about the future of citizenship in the digital age.

Consent of the Networked

While *Consent of the Networked* offers netizens a workable roadmap to a real vision of internet freedom, the people who should most read this book aren't the already aware, but folks--especially policy-makers--who see all the shiny devices and trendy social media and foolishly assume that the Internet will ultimately prevail. It might, but only if we understand what a lucky and unusual accident the Internet really is, and that to keep it open and free, we have to fight for it."
