Really an excellent book to have for an introduction to Control systems. Being mechanical engineering student this book helps a lot. I have books by

Anandnatarajan as well as of M.Gopal

, these are also good one. Book by

Anandnatarajan has tons of solved

problems. This book by Kumar has Matlab programs which are not found in above

books I mentioned. All books I mentioned have their own speciality, I won't say they have any disadvantage as that word won't fit properly because each book has got its
