Corporate Governance: Financial
Responsibility, Controls ...

Corporate governance essentially will involve sustained and responsible monitoring of not just the financial health of the company, but the social and environmental impact of the company. A substantial increase in the range, significance and impact of corporate social and environmental initiatives in recent years suggests the growing materiality of sustainability.

Ethics, Values and Corporate Governance |
OpenMind

A formal definition of Corporate social responsibility (CSR) has been proposed by the World Business Council for Sustainable Development (WBCSD): 'CSR is the continuing commitment by business to behave ethically and contribute to economic development while improving the quality of life of the workforce and their families as well as of the local community and society at large.'

Corporate ethics, governance and social responsibility in ...

Understanding ethical behavior in the context of corporate governance requires two levels of analysis: the internal concerns of corporate agency and the emergent effects on social welfare. Corporate agency is based on the premise that employees, managers, and directors (i.e., agents) should behave in the best interests of owners or shareholders (i.e., principals).

Corporate Governance - Ethical Systems

In case it's not obvious, I'll say it explicitly: corporate governance is out-and-out a matter of ethics. It is about who is responsible to whom, and for what, and under what conditions. Now, to an investor, governance might look first and foremost like a matter of economics: no one particularly wants to invest in a poorly-governed company.

Corporate Governance and Ethics | The Business Ethics Blog

Corporate governance in the face of big ethical decisions is characterised by wisdom and objectivity, not by subjective personal belief, worse still when it protected by control mechanisms and the recklessness which often accompanies emotional insecurity or a strong personal 'faith' or power delusion.
