### Critical Incidents in Communication

Management of a critical incident (CI) should start with early identification and notification.It is particularly important that small-scale CIs are identified early, as even these can have a long-term impact on community confidence if left unchecked. Processes should be in place to manage issues that may affect the quality of the police response before they can impact on public confidence.

### Critical incident management – app.college.police.uk

The critical incident technique (CIT) is particularly useful when researchers are interested in understanding the details of interactional events.
