'A valuable resource for academics and practitioners in management and corporate strategy, as well as those involved in management training and development' - European Foundation for Management Development 'The editors' overall assessment is that there has been insufficient dialogue between the two camps of action research and theorizing.... As a contribution to mapping this divided house, the text is an apt illustration of these problems. The editor's overview is of interest...' - Stephen Gibb, University of Strathclyde, MCB University Press The debates surrounding concepts of 'organizational learning' and the 'learning organization' receive a welcome synthesis in this book. Inte

This is an overview of how the concept of organisational learning emerged, how it has been used and debated, and where it may be going.
