Summary

~~Ensuring an Infectious Disease
Workforce - NCBI Bookshelf~~

Well-trained infectious disease professionals form the basis of a strong national healthcare system. Increasing costs of care have prompted training in medicine and public health to focus on improving efficiency, cutting costs while maintaining gains in life expectancy and reducing morbidity.

~~Front Matter | Ensuring an
Infectious Disease Workforce ...~~

Medical and public health professionals may be poorly equipped to detect, diagnose, and treat common infectious diseases as well as those diseases that pose an unexpected threat. The need for the development of domestic and international training programs in the expanding field of emerging and reemerging infectious diseases is well recognized.
