Among the late (and much-maligned) plays of Euripides. It offers a fresh reading of the plays, which has important implications for the way in which we read not only Euripidean tragedy but also tragedy in general. It deliberately reacts against the unexamined preconceptions on which much existing criticism is based. It also argues at length that the escape-tragedies were produced as a thematically connected trilogy in 412 B.C." "The 'escape-tragedies' (Helen, Iphigenia among the Taurians, and the fragmentary Andromeda) have for a long time been neglected or misunderstood. Critics have

tended to find them puzzling, unsatisfactory, or even 'un-tragic'. Matthew Wright re-evaluates the escape tragedies and argues that they are to be taken seriously as a major dramatic and intellectual achievement. In particular, he explores exactly what it means to say that a play is, or is not, 'tragic', and assesses the way in which genre affects our understanding of the plays."--Résumé de l'éditeur.

This is the first major critical study of three late plays of Euripides: 'Helen', 'Andromeda' and 'Iphigenia among the

Among The Taurians drama, Euripides is characterized as the interloper and the innovator: the man who put tragic verse into the mouths of slaves, women and the socially inferior in order to address vital social issues such as sex, class and gender relations. It is perhaps little wonder that his work should find such resonance in the modern day. In this concise introduction, Isabelle Torrance engages with the thematic, cultural and scholarly difficulties that surround his plays to demonstrate why Euripides remains a figure of perennial relevance. Addressing here issues of social

This book brings together case studies delving into different, unstudied aspects of the Nachleben of selected lost tragedies either in their once extant form or in their fragmentary state in later periods of time. It seeks to explore the ways in which the plays in question were reworked, discussed, represented or reperformed within varying frameworks. Notably enough, research on the reception of tragic fragments could yield insight not only into the receiving work, but also into the facets of the source text that have attracted attention in its subsequent

Among The Taurians. It could thus shed light on the ideological and cultural routes through which these fragmentary tragedies were received by the poet, the scholar, the artist, the viewer, the reader and the spectator in each case. The complex process of the refiguration of a fragmentarily preserved play within different contexts could form a yardstick of its cultural power and elucidate the dynamics of fragmentation in modern times. The volume is of particular interest to scholars in the fields of classics, reception, cultural and performance studies, as well as to readers fascinated by

Greek tragedy and its vibrant afterlife.

Using Euripides' play Helen as the main point of reference, C. W. Marshall's detailed study expands our understanding of Athenian tragedy and provides new interpretations of how Euripides created meaning in performance. Marshall focuses on dramatic structure to show how assumptions held by the ancient audience shaped meaning in Helen and to demonstrate how Euripides' play draws extensively on the satyr play Proteus, which was part of Aeschylus' Oresteia. Structure is presented not as a theoretical abstraction,

Read Free Euripides Escape Tragedies A Study Of Helen Andromeda And Iphigenia

but as a crucial component of the experience of performance, working with music, the chorus and the other plays in the tetralogy. Euripides' *Andromeda* in particular is shown to have resonances with *Helen* not previously described. Arguing that the role of the director is key, Marshall shows that the choices that a director can make about role doubling, gestures, blocking, humour, and masks play a crucial part in forming the meaning of *Helen*.

An exploration of the poetic qualities of the Greek tragic dramatists Aeschylus, Sophocles
