Extended Coverage Ordinary  
Hazard Horizontal  
Reliable extended coverage  
sprinklers are approved to  
protect light, ordinary, and  
extra hazard occupancies,  
and are available in a wide  
variety of finishes,  
temperatures, and styles.  
Reliable extended coverage  
sprinklers may reduce both  
material and installation  
costs by reducing the number  
of sprinklers, branch lines,  
fittings, and installation  
time.

Victaulic FireLock™ Model  
V3421 - Extended Coverage  
Sprinklers  
Viking Standard Response  
Ordinary Hazard Dry  
Horizontal Sidewall  
Sprinklers are  
thermosensitive spray  
sprinklers suitable for use  
in areas subject to  
freezing. The sprinklers are  
designed for dry systems and  
preaction systems where it  
is necessary to prevent  
water or condensation from  
entering the drop nipple  
before sprinkler operation.

crucial to public safety,  
for years, the designers of  
those systems had few  
published resources to  
reference and guide them  
through their design  
processes. The first edition  
of this book changed all  
that, and now The Design and  
Layout of Fire Sprinkler  
Systems Second Edition suits  
their needs even better.  
Written and thoroughly  
updated by a fire prevention  
engineer with more than 20  
years of experience, this  
book provides a complete,  
systematic introduction to  
automatic fire sprinkler  
design and layout, from  
design basics, code  
requirements, and pipe
