A National Bestseller From the creator of the iconic Cathy comic strip comes her first collection of funny, wise, poignant, and incredibly honest essays about being a woman in what she lovingly calls "the panini generation." As the creator of Cathy, Cathy Guisewite found her way into the hearts of readers more than forty years ago, and has been there ever since. Her hilarious and deeply relatable look at the challenges of womanhood in a changing world became a cultural touchstone for women everywhere. Now Guisewite returns with her signature wit and warmth in this essay collection about another time of big transition, when everything starts changing and disappearing without permission: aging parents, aging children, aging self stuck in the middle. With her uniquely

wry and funny admissions and insights, Guisewite unearths the humor and horror of everything from the mundane (trying to introduce her parents to TiVo and facing four decades' worth of unorganized photos) to the profound (finding a purpose post-retirement, helping parents downsize their lives, and declaring freedom from all those things that hold us back). No longer confined to the limits of four cosmic panels, Guisewite holds out her hand in prose form and becomes a reassuring companion for those on the threshold of "what happens next." Heartfelt and humane and always cathartic, *Fifty Things That Aren't My Fault* is ideal reading for mothers, daughters, and anyone who is caught somewhere in between.

Fifty essays on the state of population health from a vanguard voice in the field Public health can rightly claim its share of victories: healthier cities, widespread sanitation, broader availability of nutrient-rich food, and reductions in violence and injury. But for all these gains, today we face a new set of challenges, ones complicated by political and professional shifts that threaten to fundamentally change the health of populations. Healthier is both an affirmation and an essential summary of the current challenges and opportunities for those working in and around the improvement of population health. The essays contained here champion an approach to health that is consequentialist and rooted in social justice -- an expansion of traditional, quantitatively motivated public health that will both inform and inspire any reader from student to seasoned practitioner. Galea's cogent, incisive arguments guarantee that his
