and increases indoor air quality by diluting polluted or stale indoor air.

Understanding how an air conditioning system works helps us to understand the vitality of access to fresh clean air for indoor air quality.

Importance of fresh air in HVAC

*Page 13/33*

File Type PDF

Fresh Air What

Inhaling fresh air helps clear your lungs and enables you to take deeper, longer breaths of air -- which increases the amount of oxygen that's transported to your body's cells.

Increased oxygen in your body translates to greater energy and clarity of mind.

particularly if you  
need to improve your  
blood pressure. Stay  
away from the busy  
traffic as the body will  
need to work harder  
to get the amount of  
oxygen it needs over  
polluted car fumes. 3)  
Fresh air makes you  
happier
