Position Pieces for Cello is designed to give students a logical and fun way to learn their way around the fingerboard. Each hand position is introduced with exercises called "Target Practice," "Geography Quiz," and "Names and Numbers." Following these exercises are tuneful cello duets which have been specifically composed to require students to play in that hand position. In this way, students gain a thorough knowledge of how to find the hand positions and, once there, which notes are possible to play. Using these pieces (with names like "I Was a Teenage Monster," "The Irish Tenor," and "I've Got the Blues, Baby"), position study on the cello has never been so much fun!

The practice of scales need never be monotonous! Scales for Advanced Violists is a user-friendly scale book with each of the twelve keys complete. Dozens of bowings and rhythmic variants are offered to develop and improve evenness, clarity, agility, speed, and intonation. An innovative introduction to double-stops takes the guess work out of this important technique. The Circle of 5ths explains key signatures. The book includes three octave major, melodic minor, harmonic minor, arpeggios, broken 3rds, and chromatic scales. Double-stops in octaves, thirds, sixths, and harmonics are presented in two octaves. This is the only scale book that most violists will ever need!

As with the other books in his ...for Cello series, Rick Mooney has made the learning of a specific technique easier and more enjoyable than ever before. Book 2 continues where Book 1 left off and includes classical music, folk tunes, and original pieces by Rick Mooney such as "Around the Gypsy Campfire," "Harry the Hirsute Housefly," "Petite Partita" and much more. As in Book 1, all of the pieces have been arranged as duets, with a second cello part for the teacher (or other students in a group class) to play.

(Instructional). This classic book offers studies of scales and arpeggios in all of their various bowed, fingered and rhythmic combinations, with excellent exercises progressing in difficulty and encompassing four octaves. A great resource for teachers of students at all levels!

Nearly a century after its initial publication, Carl Flesch's Scale System remains one of the foremost scale books for violin. This comprehensive collection of exercises features the 24 major and minor scales, with emphasis on both double-stops and arpeggios. With Flesch's exercises, the intermediate player will progressively master intonation, shifting, rhythm, string crossing, bow speed and pressure, and tone production. Initially published as a supplement to Book 1 of The Art of Violin Playing, Flesch's Scale System has become the principal scale study for serious violinists. Carl Flesch

(1873–1944) was born in Hungary and began playing the violin at age seven. He was a famous chamber musician, instructor, and solo performer, who mastered repertoire ranging from Baroque to contemporary works.

Compiled by Alwin Schroeder, a former cellist with the Boston Symphony Orchestra and an experienced teacher, this collection of 80 exercises constitutes the first book of a three-volume set. Schroeder drew upon his extensive experience to create original études for instructing students, and in this work he combines them with several others by his distinguished nineteenth-century European colleagues: Karl Schröder. Ferdinand Büchler, Friedrich Dotzauer, Auguste Franchomme, Friedrich Grützmacher, and Sebastian Lee. The carefully selected studies are arranged in order of increasing complexity, and Schroeder provides suggestions for fingering, bowing, and dynamics. Cello students and teachers will find these exercises a splendid resource for the improvement of technique and performance.

Sonata No. 1 for viola and piano. Edwin York Bowen (1884 –1961) was an English composer and pianist and also a talented conductor, organist, violist and horn player. Many of his works remained unpublished and unperformed until after his death in 1961. A separate viola part is included with the score.
