Geodesy is the science that deals with the Earth's figure and the interrelationship of selected points on its surface. This is the only book on the market designed to provide readers with an introduction to geodesy without the usual emphasis on complex mathematics. Describes such positioning techniques as horizontal and vertical geodetic datums. Satellite geodesy, electromagnetic distance measurement, laser ranging and emerging technologies including the global positioning techniques and GIS are among the topics discussed. Features scores of two-color diagrams and examples to facilitate understanding.

Focussing on the past history and present day life of the people in two villages in the central Eastern Cape, South Africa, the book provides a vivid but detailed and insightful account of the transformation of rural society and economy since colonisation.

From the national bestselling author of Slightly Spellbound comes the latest Southern Witch novel featuring Tammy Jo Trask. Tammy Jo rarely sets a toe outside Texas, but when she learns her mother is in trouble, Tammy is determined to save her—even if it means going to hell and back.. Fresh off her engagement to wizard Bryn Lyons, Tammy Jo is surprised to make another new family connection when she meets the twin sister she never knew she had. After being spirited away to the fae kingdom of Never as an infant, Kismet has finally escaped, and arrived in Duvall, Texas, with some terrible news: their mother, Marlee, is a prisoner of the Seelie fae. Crossing the ocean to battle the fae isn't Tammy Jo's idea of a romantic getaway, but Bryn refuses to let her go alone—as do her aunt Edie and her ex-husband Zach. Unfortunately, their plot to free Marlee is foiled when they are caught by the fae queen. And the only chance the queen gives them to save Marlee's life may be an impossible quest...

A detailed history of how agrarian reform has manifested in South Africa and how it will progress into the future. In the Shadow of Policy explores the interface between the policy of land and agrarian reform and its implementation and between the decisions of policy "experts" and actual livelihood experiences in the fields and homesteads of land reform projects. Starting with an overview of the sociohistorical context in which land and agrarian reform policy has evolved in South Africa, the volume presents empirical case studies of land reform projects in the Northern, Western, and Eastern Cape provinces. These draw on multiple voices from various sectors and provide a rich source of material and critical reflections to inform future policy and research agendas. Notions of land and agrarian reform are now well entrenched in postapartheid South Africa. But what this reform actually means for everyday life is not clearly understood, nor the way it will impact the political economy.
