Greed Is Good. Except When It's Bad. - The New York Times

Yes, greed is bad. If wealth were shared equally then greed would have no bad implications because it would be great for everyone to have and get even more of what we want. When things such as food are not shared equally and some of us have access to good and healthy food and others do not, then our lifestyle is causing others to suffer when we just want more for ourselves.

Mr. Booket is presumably a good guy. But he's also clearly bought into the idea that anything rich people do to make money is good for the rest of us too. Here, then, is my concise breakdown of the two biggest reasons why greed and inequality are bad: First: When people at the top are greedy, workers don't get their just rewards. For a long time in this country, there was a very close relationship between productivity growth and wage growth.
