Modern Magic by Professor Hoffmann was one of the first books published in English on the art of conjuring during the Victorian era. Hoffmann was considered to be one of the greatest authorities on the theory and practice of magic at that time. This hardcover edition is a facsimile of the 1876 edition and whist some parts of the text are faded, it perfectly readable and make a beautiful addition to any magician or historian's library.

Demon Magic By Robert Harbin INTRODUCTION George Davenport asked me if I would publish in book form a series of effects that I have discussed with him from time to time. Well, here they are. There are almost countless books on new card tricks, and sleights with countless things. I think that you will agree with me, dear reader, that '' stuff '' of this kind can be churned out by the gallon. But of books containing a few .. honest to goodness '' effects there is a great shortage. My offering consists of a collection of '' original .. effects which I guarantee will work, and I have done my level best to give you absolute working diagrams. Now be a '' sport '' and try at least one of these. - RH (1938)EFFECTS INCLUDE- Walking Through a Rope - The Blue Ray - Two of the Best - The Stocks of Harbin - Most Unusual!- The Vanishing Glass and Contents- Two "Demons"- The "'Demon" Pins - The "Demon" Lamp - The Superb Change - Some Table Designs- Novelties - If You Want a Wife? - My Floating Glass - The "Demon" Shadow Trick - There and Back - Some Paper Magic - A Torn Newspaper - Have Some More! - If You Want a Production Box!- The Packing Case Escape - Harbin's "'Demon" Paddle - Crockery 57 Pages including Illustrations.

Instructions and diagrams for fashioning such simple objects as a flower, Japanese box, and church as well as more challenging projects such as a squirrel on a log, birds in a nest, a unicorn, and a full-rigged sailing ship. Over 30 entertaining projects for origami fans of all ages and abilities.
