The Heart Of the Initiate is a small book, only seventy eight pages but it has quite a bit of info about various aspects of Feri straight from Victor and Cora themselves. There are a few bits of the book that does however seem to be paradoxical. Victor may say one thing on one page, yet turn around and say another later in a letter to a student.

know several people with copies, they all live far from me and I've never had an opportunity to visit and read it.

Book Review: The Heart of the Initiate: Feri Lessons ...

Heart of the Initiate is a project that was started 14 years ago. It has been the meeting place for many international visitors coming to work with ancient shamanic ceremonies. We have worked for a decade now with the shaman Warinei Wanare and his assistants. Warinei uses several different traditions and forms of shamanic healing processes.

The Feri Tradition is an initiatory tradition of modern Pagan witchcraft. It was founded in California in the 1960s by the Americans Victor Henry Anderson and his wife Cora Anderson. Practitioners have described it as an ecstatic tradition rather than a fertility tradition. Strong emphasis is placed on sensual experience and awareness, including sexual mysticism, which is not limited to heterosexual expression. The Feri Tradition has very diverse influences, such as Huna, Vodou, Faery lore, Kabb

AbeBooks.com: The Heart of the Initiate: Feri Lessons (9781936863785) by Anderson, Victor; Anderson, Cora and a great selection of similar New, Used and Collectible Books available now at great prices.

Featuring rare teachings from two influential teachers on the Feri tradition of witchcraft, this compact and unique resource covers Feri initiation, sexual ethics, the Guardians, Deities, and more. Including commentaries, letters to students, and extraordinary interview excerpts, this handbook reveals profound insights into the Goddess, rites, symbols, and the mysteries of the Craft.

Written as a gift to the author's husband, the blind poet and shaman Victor H. Anderson, for their 50th wedding anniversary, this book

Read Book Heart Of The Initiate Feri Lessons

explains the Andersons' work and teachings in the Fairy Faith of the Old Religion--its theology, physics, and social structure. Profound and insightful, this slim volume is packed with information not available anywhere else and is the definitive text on the Anderson Feri Tradition, also known as Vicia.

This collection of rare writings by Feri teachers Victor and Cora Anderson discusses subjects such as the Triune soul, etheric sight, the human aura, and astral projection (OOBE). Also included are Feri prayers and exercises such as the Flower prayer (to contact the personal god), the Ha Prayer (to raise mana for successful spells and prayers), and the Kala prayer (to clear energy blocks). This compendium provides all seekers, regardless of their spiritual path, with information to better understand the nature of the soul and expand their psychic skills.

A personal narrative filled with homespun wisdom, this memoir recounts the life and times of one of the founders behind the Feri tradition of modern Neopagan witchcraft. Revealing the author's journey through an intriguing collection of challenging circumstances and memorable experiences, this account ranges from an impoverished childhood in rural Alabama during the Great Depression to her marriage to the blind poet, shaman, and cofounder of the Feri tradition, Victor H. Anderson. Warm, intimate, and bittersweet, this glimpse into the world of a true American "kitchen witch" includes recipes, personal spells, and poetry, demonstrating an extensive knowledge of a craft held in high regard by healers and folk magicians of the rural South.

A companion volume to Anderson's award-winning first book of poetry, *Thorns of the Blood Rose*, these poems were selected by the author before his death to be contained in the present collection. Picking up where the first book left off, the poems explore themes of love, death, the beauty of the natural world, and devotions to the

Goddess and God in their many guises. Some of the poems which were deemed too scandalous for inclusion in the previous work are published here for the first time.

"Storm Faerywolf deftly shares powerful teachings and techniques for those who would seek to know the way of Faery, helping Witches on any path find their way deeper into the mysteries."—Christopher Penczak, author of the Temple of Witchcraft series
Faery (also known as Feri) is a tradition of great power and beauty. Originating in the West Coast of the United States separately from the Wicca tradition in England, Faery's appeal is grounded in its focus on power and results. This book provides the tools you need to begin your own Faery-style magical practice. Discover the foundational mythology and rites of the Faery tradition as well as steps and techniques for: Creating an Altar Summoning the Faery Fire Engaging the Shadow? Exploring the Personal Trinity Purifying the Primal Soul Working with the Iron Pentacle Aligning Your Life Force Developing Spirit Alliances Journeying Between the Worlds Exploring Air, Fire, Water & Earth Enhancing Faery Power Personal experimentation and creative exploration are the heart and soul of Faery. The rituals, recipes, exercises, and lore within will help you project your consciousness into realms beyond this world, opening you to the experience of spiritual ecstasy.

Winner of the 1975 Clover International Poetry Competition Award, this collection of ritual and love poetry of witchcraft has been hailed as a classic of neo-Pagan literature.

"Witches are gathering." When most people hear the word "witches," they think of horror films and Halloween, but to the nearly one million Americans who practice Paganism today, it's a nature-worshipping, polytheistic, and very real religion. So Alex Mar discovers when she sets out to film a documentary and finds

Read Book Heart Of The Initiate Feri Lessons

herself drawn deep into the world of present-day witchcraft. *Witches of America* follows Mar on her immersive five-year trip into the occult, charting modern Paganism from its roots in 1950s England to its current American mecca in the San Francisco Bay Area; from a gathering of more than a thousand witches in the Illinois woods to the New Orleans branch of one of the world's most influential magical societies. Along the way she takes part in dozens of rituals and becomes involved with a wild array of characters: a government employee who founds a California priesthood dedicated to a Celtic goddess of war; American disciples of Aleister Crowley, whose elaborate ceremonies turn the Catholic mass on its head; second-wave feminist Wiccans who practice a radical separatist witchcraft; a growing "mystery cult" whose initiates trace their rites back to a blind shaman in rural Oregon. This sprawling magical community compels Mar to confront what she believes is possible-or hopes might be. With keen intelligence and wit, Mar illuminates the world of witchcraft while grappling in fresh and unexpected ways with the question underlying all faiths: Why do we choose to believe in anything at all? Whether evangelical, Pagan priestess, or atheist, each of us craves a system of meaning to give structure to our lives. Sometimes we just find it in unexpected places.

Draw on your inner darkness and unlock the secrets of the Hidden Kingdom Whether your demons are ancient spirits or demons of your own making, you must confront them in order to reclaim the power they have stolen. Guiding you through enchantments, demonic rituals, divine possession, necromancy, and *occultus maleficum*, this book helps you cultivate and explore your forsaken shadows. When you peer behind the veil of comfort and face your most powerful fears, you can truly begin to refine and strengthen your own magical will. In *Forbidden Mysteries of Faery Witchcraft*, you will learn how to: Summon primal underworld goddesses of the elemental powers Walk the bone road and help trapped spirits cross

Read Book Heart Of The Initiate Feri Lessons

over Become a worthy vessel for divine possession Perform as an oracle, speaking the wisdom of the gods on earth Cast and break curses, the dark art of offensive magic The powerful techniques of the Faery Tradition of Witchcraft await. Through these rituals, you will glimpse the secret inner workings of nature herself and open the doorway to unimagined sources of energy.

In this study, Victor Anderson traces instances of "ontological blackness" in African American theological, religious and cultural thought, arguing that African American critical thought has been trapped in a racial rhetoric that it did not create and which cannot serve it well. Drawing together 18th- and 19th-century accomodationism and its assimilationist heirs with the movements of Black Power and Afrocentrism, Anderson shows that all exhibit a similar structure of racial identity. He suggests that it is time to move beyond the confines of "the cult of black heroic genius" to what Bell Hooks has termed "postmodern blackness": a racial discourse that leaves room to negotiate African American identities along lines of class, gender, sexuality, and age as well as race.
