Dominic was staring at me like he couldn't decide whether to chop me into pieces or pull my hair and French kiss me. Dominic I got her fired. Okay, so I'd had a bad day and took it out on a bystander in a pizza shop. But there's nothing innocent about Ally Morales. She proves that the first day at her new job... in my office... after being hired by my mother. So maybe her colorful, annoying, inexplicably alluring personality brightens up the magazine's offices that have felt like a prison for the past year. Maybe I like that she argues with me in front of the editorial staff. And maybe my after-hours fantasies are haunted by those brown eyes and that sharp tongue. But that doesn't mean that I'm going to be the next Russo man to take advantage of his position. I might be a second-generation son of a... fill in the blank, but I am not my father. She's working herself to death at half a dozen dead-end jobs for some secret reason she doesn't feel like sharing with me. And I'm going to fix it all. Don't accuse me of caring. She's nothing more than a puzzle to be solved. If I can get her to quit, I can finally peel back all those layers. Then I can go back to salvaging the family name and forget all about the dancing, beer-slinging brunette. Ally Ha. Hold my beer, Grumpy Grump Face. Author's Note: A steamy, swoony workplace romantic comedy with a grumpy boss hero determined to save the day and a plucky heroine who is starting to wonder if there might actually be a beating heart beneath her boss's sexy vests.

Archie is seventeen years old and lives in Jersey City, New Jersey, he loves reading horror books but, unlike his friends, he has a special power: he is a psychic, he can foresee the future and he can sense

things that the human consciousness ignores. One day he receives a letter, without the return address, that informs him about the mysterious death of a distant relative from England, Lord Archibald Anderson III. The Lord appointed Archie as his only successor, and bequeathed an ancient castle near London to him, on condition that the boy arrives at the manor house strictly before the 31st of October, without explaining the reason. Archie arrives at Anderson Castle in company of three classmates: the funny and affable Penny, the cocky womanizer Rigger, and the snob and very rich Daphne. The four friends are welcomed by a man named Frank, who introduced himself as Archie's uncle, the deceased Lord's brother. However, the uncle seems eager to throw them out before the Halloween's night begins. The four friends find out very soon that the castle is actually haunted by furious demonic ghosts that will try to kill them in every way, and that Lord Archibald's death is linked to the mystery of Anderson Castle. Anderson Castle is a fantasy horror for teenagers, intentionally ironic, and its theme is typical of the 'Haunted' series, the haunted house with ghosts, following the novel series 'Goosebumps' from R.L. Stine. The whole novel is a tribute to the book The Canterville Ghost by Oscar Wilde, since it follows its irony, the soft horror and the funny situations. Hamlet by William Shakespeare is another book often cited: it's not a coincidence that the title of every chapter sums up the happenings in Anderson Castle with a phrase from this famous tragedy. The third important point is the exorcism of death. The four protagonists are threatened by supernatural beings that will bring each of t

Bobby Foster, carhop at the chic Cafe Comedie, is going to the gas chamber. He's already confessed to the murder of Tracy Kostakos, the club's rising star. But two years after the crime, Tracy's body is still missing and Bobby's confession is full of holes. All Souls Legal Cooperative's final appeal sends San Francisco's number one PI Sharon McCone behind the footlights into the super-charged arena of anxious club owners and aspiring young hopefuls, into the fractured world of Tracy's privileged family and the mind of a young comedienne who was not the good little girl they thought they knew, and into a labyrinth of death and deception where someone will kill to laugh last and get away with murder.

The sixth volume in the popular The House of Niccolo series, this vivid novel of the 15th century centers on Nicholas vander Poele who, in 1471, is acclaimed by all the great courts of Europe, but whose personal life is tumultuous. He and his passionate rival--his wife--embark on a deadly competition for control of their mutual destiny.

In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Mechanics of Machines is designed for undergraduate courses in kinematics and dynamics of machines. It covers the basic concepts of gears, gear trains, the mechanics of rigid bodies, and graphical and analytical kinematic analyses of planar mechanisms. In addition, the text describes a procedure for designing disc cam mechanisms, discusses graphical and analytical force analyses and balancing of planar mechanisms, and illustrates common methods for the synthesis of mechanisms. Each chapter concludes with a selection of problems of varying length and difficulty. SI Units and US Customary Units are employed. An appendix presents twenty-six design projects based on practical, real-world engineering situations. These may be ideally solved using Working Model software.
