VMC Hurco BMC 2416 DSM (SOLD)

The efficient design of the Hurco 5-axis trunnion table machining centers is a key benefit to consider. We use an integrated trunnion table at Hurco instead of simply sticking a trunnion table on a 3-axis machining center and passing it off as a 5-axis machine. The integrated trunnion table design provides more clearance in Z compared to other brands.

FAQ Hurco CNC

Hurco BMC 2416 ATC arm I finally got the arm on my 2416 adjusted right so it changes tools. The problem is it seems to actuate from 0 to 60 VERY hard and very fast and slams against the tool holders. When it does this, the arm eventually slips on the end of the shaft which requires me to re-adjust/reset it. My air pressure for the machine is set at 90-95 psi and the all the oil levels seem OK ...

Hurco BMC 2416 ATC arm - Practical Machinist

I finally got the arm on my 2416 adjusted right so it changes tools. The problem is it seems to actuate from 0 to 60 VERY hard and very fast and slams against the tool holders. When it does this, the arm eventually slips on the end of the shaft which requires me to re-adjust/reset it. My air pressure for the machine is set at 90-95 psi and the all the oil levels seem OK.

HURCO > BMC 2416 ATC arm

Hello all, I own a Hurco BMC30 from 1997. When attempting a tool change the operation stops when the drawbar releases the tool after the carousel has grabbed the tool. The machine then states SERVO FAULT SPINDLE READY. The machine then needs to have its servos reset and manually back the carousel away from the spindle. The Hurco serviceman and myself have been over the machine thoroughly ...

HURCO > Hurco BMC30 tool change problem.
