Cities are almost entirely dependent on surrounding regions for food, water, and energy (FWE) to sustain urban population and activities. Sixty percent of the global population will live in cities by 2030, with 90% of urban growth in the coming decades likely to occur in low- and middle-income countries.

~~Home — The Nature of Cities~~

Nature-based solutions are a consequence and cause of changing attitudes towards sustainability in cities, and their development shows that urban planning, political will, and social participation must always be intertwined to make cities a better place. Rodrigo Bellezoni and Fanxin Meng S ã o Paulo and New Haven. On The Nature of Cities

~~What Can Policymakers Do to Enhance Nature-based Solutions ...~~

The Nature of Cities is an international platform for transdisciplinary dialogue and urban solutions. We curate the sharing of diverse, transformative ideas about cities as ecosystems of people, nature, and infrastructure. We are committed to the design and creation of better cities for all: cities that are resilient, sustainable, livable, and just.

~~About The Nature of Cities — The Nature of Cities~~

The Nature of Cities offers the ecological component often missing from cultural analyses of the city and the urban perspective often lacking in environmental approaches to contemporary culture. By bridging the historical gap between environmentalism, cultural studies, and urban experience, the book makes a statement of lasting

# Download Ebook In The Nature Of Cities Urban Political Ecology And The Politics Of CitiesWithNature, as a unique, next-generation initiative, is

supporting an online community of practice, enabling learning and action around integrating nature in cities and (re)connecting people with nature. As almost half of humankind have lesser or even no options to connect with nature outdoors in these trying times, many are realising anew just how essential our connection with nature is for our own health and wellbeing, and how deeply it is longed for, once we are separated from it.

prompted by the recognition that the material conditions that comprise urban environments are not independent from social, political, and economic processes, or from the cultural construction of what constitutes the 'urban' or the 'natural'.

~~In the Nature of Cities: Urban Political Ecology and the ...~~

We know in fact that we need daily contact with the natural environment and we have to overcome this sort of bifurcation that cities and nature can't coexist. Part of our separation from nature is that we thought nature is something "over there" and where we live is not nature, and especially if we live in a cities.
