This page intentionally left blank - European Law Studies ... International Law is the definitive and authoritative text on the subject, offering Shaw's unbeatable combination of clarity of expression and academic rigour and ensuring both understanding and critical analysis in an engaging and authoritative style.

The definitive and authoritative international law text, updated to reflect key case law, international practice and treaty developments.

The definitive textbook on international law, updated to reflect all case law and treaty developments.

The focus of this law school casebook is on constitutional law as it relates to the conduct of foreign relations, primarily with that subfield dealing with the "separation of powers." Foreign relations law refers to the rules, principles, practices and procedures which structure the formation and execution of U.S. foreign policy, including it's participation in international law and institutions.

This book explores the rules and principles that underpin the international law of territory. It covers colonisation and decolonisation, the rules governing protection of territorial integrity of an independent State, the principles relevant to boundary disputes, and the elements of effective control over territory.

Contains essays describing the role of territory in international law. This book also describes how the international legal system accepts and regulates the apportionment of territory between states, and regulates boundary questions.

Now in its third edition, *International Law, Cases and Materials with Australian Perspectives* remains an authoritative textbook on international law for Australian students. With a strong focus on Australian practice and interpretation, the text examines how international law is developed, implemented and interpreted within the international community and considers new and developing approaches within this field. This edition has been comprehensively updated to address recent developments in international law. The selection of cases and materials provides a thorough coverage of core areas and addresses a range of contemporary challenges, including climate change, human rights, nuclear proliferation and the South China Sea. A new chapter on international trade law reflects the growing importance of this body of law in Australian practice. Guiding commentary provides a rigorous analysis of key principles. Written by a team of experts with substantial experience in this field, *International Law* is an essential resource for students.

This book assesses the impact that pronouncements by the International Court of Justice (ICJ) have had on international law. It provides a comprehensive overview of the role of the ICJ in the contemporary law-making process.

Cases & Materials on International Law is a topical and engaging companion for study, offering broad coverage on public international law and placing disputes directly within the context of contemporary debate. The book contains the essential cases and materials that students need in order to fully understand and analyse the international legal system, drawing on a truly global range of jurisdictions and sources. Expert author commentary and notes place selected extracts within the wider legal framework and explain the complexities of the principles of law to students. The sixth edition includes expanded discussion of developing areas, including UN resolutions on climate change and international environmental law, new material from the International Law Commission, and coverage of major events, such as the annexation of Crimea, the legal context for Scottish independence and the UK's exit from the European Union, and the United Nations Security Council's Resolution on Malaysia Airlines MH17.

Cassese's *International Law* is a new edition of an established classic. Authors Gaeta, Vi uales, and Zappal have built on the legacy of international law luminary Antonio Cassese to offer a thought-provoking and lucid account for today's undergraduates and postgraduates. The authors have refreshed Cassese's original approach, ensuring the book continues to compare the traditional legal position with the developing and evolving law. Advancing areas such as the law of the sea, territorial matters, and international environmental law have been expanded to give proper place to their evolving development, while brand new chapters on international trade and foreign investment have been written to reflect the advancements of these areas. In maintaining the broad structure and approach but providing new material, the authors bring fresh context to Cassese's thinking and provide students with an up-to-date, compelling account of the landscape of international legal thinking.

International Law presents a student-focused approach to the subject; clearly written with non-native English-speaking students in mind, a range of learning features highlight the areas of debate and encourage students to engage critically with key disputes.
