May 9, 2017thesanguy8 Comments. This is a command reference for almost all of the CLI commands available in the Isilon OneFS CLI. The basic commands are outlined and in many cases multiple samples of using the commands are provided. This information was gathered as an easier to use, more condensed reference than the 1000+ page long CLI Administration guide provided by EMC, however I recommend you refer to that guide for more specific information on the commands.

Isilon CLI Command Reference—THE SAN GUY

The Isilon OneFS web administration interface provides access to cluster configuration, monitoring, and management of SMB shares, NFS exports, and SmartQuotas.
