A remarkable eyewitness account of the most brutal combat of the Pacific War, from Peleliu to Okinawa, this is the true story of R.V. Burgin, the real-life World War II Marine Corps hero featured in HBO®'s The Pacific. "Read his story and marvel at the man...and those like him."—Tom Hanks When a young Texan named R.V. Burgin joined the Marines 1942, he never imagined what was waiting for him a world away in the Pacific. There, amid steamy jungles, he encountered a ferocious and desperate enemy in the Japanese, engaging them in some of the most grueling and deadly fights of the war. In this remarkable memoir, Burgin reveals his life as a special breed of Marine. Schooled by veterans who had endured the cauldron of Guadalcanal, Burgin's company soon confronted snipers, repulsed jungle ambushes, encountered abandoned corpses of hara-kiri victims, and warded off howling banzai attacks as they island-hopped from one bloody battle to the next. In his two years at war, Burgin rose from a green private to a seasoned sergeant, fighting from New Britain through Peleliu and on to Okinawa, where he earned a Bronze Star for valor. With unforgettable drama and an understated elegance, Burgin's gripping narrative stands alongside those of classic Pacific chroniclers like Robert Leckie and Eugene Sledge—indeed, Burgin was

even Sledge's platoon sergeant. Here is a deeply moving account of World War II, bringing to life the hell that was the Pacific War.

Chronicling the growth of a recruit from boot camp at Parris Island, South Carolina, to a seasoned troop leader, this memoir also relates the experiences of the 200 marines in A Company, First Battalion, Second Marines, as they engaged in island warfare in the South Pacific at Guadalcanal, Tarawa, Saipan and Tinian.

Clive Howard and Joe Whitley were both sergeants and served as correspondents for the Seventh Air Force during World War 2. The men of the Seventh were forced to fly the longest missions in any theater of war, entirely over water and, at first, without fighter escort. They fought at Midway, Guadalcanal, Tarawa, Kwajalein, Eniwetok, Truk, Saipan, Palau, the Philippines, Iwo Jima, and finally Tokyo. One Damned Island After Another covers the history of this remarkable air force from the events at Pearl Harbor through to V-J Day, detailing events on every single island that the force landed on in between. This new 2019 edition of One Damned Island After Another includes annotations and original photographs from the Pacific campaigns.

An unvarnished and moving memoir of a Marine veteran who fought his way across the Pacific Theater of World War II and whose story is featured in the HBO series "The Pacific."

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

A memoir of a tough childhood--and tough combat--by an "adventurous, lively, outspoken, opinionated" WWII Marine veteran (Columbus Dispatch). On September 15, 1944, the US First Marine Division landed on a

small island in the Central Pacific called Peleliu as a prelude to the liberation of the Philippines. Among the first wave of Marines that hit the beach that day was twenty-two-year-old George Peto. Growing up on an Ohio farm, George always preferred being outdoors and exploring. This made school a challenge, but his hunting, fishing, and trapping skills helped put food on his family's table. As a poor teenager living in a rough area, he got into regular brawls, and he found holding down a job hard because of his wanderlust. After working out west with the CCC, he decided that joining the Marines offered him the opportunity for adventure, plus three square meals a day—so he and his brother joined the Corps in 1941, just a few months before Pearl Harbor. Following boot camp and training, he was initially assigned to various guard units until he was shipped out to the Pacific and assigned to the 1st Marines. His first combat experience was the landing at Finschhafen, followed by Cape Gloucester. Then as a Forward Observer, he went ashore in one of the lead amtracs at Peleliu and saw fierce fighting for a week before the regiment was relieved due to massive casualties. Six months later, his division became the immediate reserve for the initial landing on Okinawa. They encountered no resistance when they came ashore, but would go on to fight on Okinawa for over six months. This is the wild and remarkable story of an "Old Breed" Marine—his youth in the Great Depression, his training and combat in the Pacific, and his life after the war, told in his own words.

Stranded in Honolulu when a strange cloud causes a worldwide electronics failure, sixteen-year-old Leilani and her father must make their way home to Hilo amid escalating perils, including her severe epilepsy.

UNRAVELLING AERIAL MYSTERIES OF THE PAST Charles Fort published his first and most influential book, *The Book of the Damned*, a century ago in 1919, collecting together many historical reports of strange aerial phenomena. Since the birth of the UFO controversy in 1947 Fort's writings have been cited in countless books and web pages. Yet this is the first time in a hundred years that researchers have systematically verified the sources and content of every one of these oft-recycled stories, correcting many errors, placing each case in its historical context, and submitting it to a careful scientific investigation in an attempt to find a conventional answer. What were these reported phenomena? Is it possible to find non-exotic explanations? With the advantage of modern knowledge, methods, and resources, in most cases the answer proves to be yes. Some of the solutions found may shock the general reader and surprise even specialists. Yet in the end a few well-documented events remain unexplained.

The classic science fiction horror novel of possessed children that inspired the terrifying *Village of the Damned* films. In John Wyndam's classically elegant, calm style, this novel explores the arrival of a

collective intelligence on earth that threatens to eliminate mankind. The quiet, eerie changes that befall Midwich manifest in strange ways: On the surface, everything seems normal, but scratch a little deeper and there is a clear sense of dread. After the night of September 26, every woman of childbearing age is pregnant, all to give birth at the same time, to children who are all alike—their eyes mesmerizing, void of emotion. These children are innately possessed with unimaginable mental powers and a formidable intelligence. It is these children who develop into an unstoppable force, capable of anything and far out-reaching other humans in cunning. Whatever dwells in Midwich is sowing the seeds for a master race of ruthless and inhumane creatures who are bent on nothing less than absolute and total domination. The London Evening Standard called The Midwich Cuckoos "humane and urbane with a lightly sophisticated wit putting the ideas into shape." Wyndham skillfully heightens the terror by making his narrative so rational and matter-of-fact. In such a nuclear and technological age, this story is rich in irony in that it is set in the picturesque, bucolic English Village and the "enemy," or, the threat is seeming cherubim. "Exciting, unsettling and technically brilliant." —The Spectator
