John Deere 318 PowerflowJohn Deere 318 Powerflow John Deere Power Flow Chute

The Power Flow chute is required, along with the high-performance Power Flow blower, to use the 2-bag Power Flow material collection system. The chute includes a convenient handle and a fill indicator that tells the operator when the bags are getting full. One chute works with several vehicle applications.

John Deere Power Flow Chute For Bagging Systems BM21681

Power Flow™ Chute GXT002256-UN-15JUL15 The material collection system requires unrestricted airflow from mower deck to bags for best performance. A fill indicator on the bagging chute measures airflow through the system.

OMGX26370 - John Deere

- Keep the POWER FLOW, chute, hopper, bags, and underside of mower deck clean.
- Keep throttle lever at fast position but travel slow.
- Level mower front-to-rear so rear of mower is no more than 10 mm (3/8 in.) higher than front of mower.
- Operate mower in higher cutting positions.
