John Mighton's JUMP program is changing the way math is taught, and his powerful math workbooks give children the tools they need to master this crucial subject. The key is a step-by-step teaching method that isolates and describes concepts so clearly that anyone can understand them: students build on their successes, becoming proficient at solving problems with confidence and enthusiasm. Now, parents and caregivers can bring the JUMP program home. These workbooks follow the current student worksheets used by JUMP tutors and classroom teachers, including: an introduction for parents and caregivers that clearly explains the thinking behind the program and provides hours of activities, worksheets carefully designed to enable children to move from one success to the next, a glossary of math terms, and a selected answer key.

Kangaroo is back! In this story he and his friends at camp divide into halves, thirds, and fourths to form teams at field day. Readers will cheer on this rowdy crew of Australian animals as they swim, canoe, play tug-of-war, and have a good, goofy time.

A UNIQUE NEW APPROACH THAT'S LIKE A lightning bolt image! TO THE BRAIN You know that moment when you feel as though a lightning bolt has hit you because you finally get something? That's how this book will make you react. (We hope!) Each chapter makes sure that what you really need to know is clear right off the bat and sees to it that you build on this knowledge. Where other books ask you to memorize stuff, we're going to show you the must know ideas that will guide you toward success in 7th grade math. You will start each chapter learning what the must know ideas behind a math subject are, and these concepts will help you solve the math problems that you find in your classwork and on exams. Dive into this book and find: 250+ practice questions that mirror what you will find in your classwork and on exams A bonus app with 100+ flashcards that will reinforce what you've learned Extensive examples that drive home essential concepts An easy-access setup that allows you to jump in and out of subjects Grade 7 math topics aligned to national and state education standards Special help for more challenging math subjects, including equations, geometry, probability, and statistics We're confident that the must know ideas in this book will have you up and solving math problems in no time—or at least in a reasonable amount of time!
