Key Concepts for Strategic Management and Organizational ...

There are four phases in every project life cycle. The first phase is the concept phase. This is the phase where hard evidence such as graphs, charts, statistics, and other hard data is analyzed to help with successfully completing the process. The next phase in the project life cycle is the planning phase. In this part of the project life cycle, the project team along with the project manager decides how to best complete the project and develops a plan for that completion.
