En un mundo en el cual la informática y las ciencias computacionales ocupan un nuevo lugar el cerebro humano requiere otras miradas, más creativas, que van más allá del exclusivo punto de vista científico. En El nuevo cerebro humano, ahonda sus percepciones al respecto, pero realiza un magistral paneo de lo que ha sido el cerebro como estudio desde la antigüedad, los clásicos griegos, pasando por los descubrimientos de la física y la neurociencia, la psicología, el psicoanálisis, el arte, y profundiza los aportes de la cultura oriental, rica en matices y encaminada más hacia una visión espiritual del tema. Este libro aborda los últimos avistamientos de proyectos como Iniciativa Brain, Cerebro Humano y Conectoma, que son una luz para avanzar en el manejo y eventual curación de enfermedades como el Parkinson, el mal de Alzheimer, el autismo y enfermedades mentales que nos aquejan como la depresión y la esquizofrenia. Un extraordinario libro que reúne la sencillez del sabio, la imaginación del artista y el rigor del científico. Indispensable para acercarse a la #máquina más compleja del universo#.

Countless Kriya Yogis tracing their lineage back to Lahiri Mahasaya have continued to disseminate the ancient practice of Kriya Yoga to new disciples, in India and in the West. Through a combination of mis-communication and intentional alteration, however, most of what is taught as Kriya Yoga today is far from what was originally taught, often to the detriment of sincere practitioners. In this short, but practical and experiential guide, Sri Mukherjee reveals the techniques of Kriya Yoga, as originally taught by Lahiri Mahasaya. Sri Mukherjee is the disciple of Sri Gyanendranath Mukhopadhyay (Mukherjee) who compiled the Pranab Gita from the teachings of his Guru, Swami Pranabanandaji. Swami Pranabanandaji is well known as the main disciple of Lahiri Mahasaya, and so what is made available here has not been altered through the distorting effect of formal organizations (which Mahasaya and Pranabanandaji both eschewed), but has been kept intact through the age-old method of direct guru-to-disciple transmission. Fearing the loss of the original Kriya Yoga as taught by Lahiri Mahasaya, Sri Mukherjee has generously written this book in order to record and share this most valuable of all human knowledge.

The Shiva Sutra was revealed to and written down by Vasugupta (ca 875--925 CE). The Sutra is considered mystical and of divine origin. For Kashmir Shaivism, it is one of the most important key sources. It outlines the teachings of Shaiva non-dualism, where the focus is on attaining the Ultimate Reality in which everything is created and dissolved. This ultimate state is called Param Shiva and is beyond description. For attaining this state of Shiva for those who remember to reside in their own inherent-self-nature, which is of the nature of Shiva, no effort or no way is needed. For everyone else there are three ways for the attainment of Param Shiva described in the Shiva Sutra. There is no strict order given for meditating on the Sutra. It depends on one's stage of evolution. Translation from the original Sanskrit with notes.

Kidnapped into slavery in 1841, Northup spent 12 years in captivity. This autobiographical memoir represents an exceptionally detailed and accurate description of slave life and plantation society. 7 illustrations. Index.

The religions of the world preserve the knowledge and protect the secrets of ancient powerful mantras. At the heart of world religion, and among the most powerful mantras in the history of religion, is the Navkar mantra, or Trimantra. In the book "Trimantra", Gnani Purush (embodiment of Self knowledge) Dada Bhagwan explains the Trimantra, its mantra meaning, and the extraordinary benefits of its recitation. Whether wishing to live with no worry while facing problems in everyday life, wondering how to get inner peace, or on a spiritual quest seeking spiritual enlightenment (self realization), utilizing Trimantra provides that – and more. Among the many spiritual books available today, Dadashri’s spiritual guidance about the value of Trimantra, and how to best access its spiritual power, is invaluable.

This is the second volume of a two volume series on the original Kriya Yoga of Lahiri Mahasaya. It picks up where Volume I left off, and explains more in-depth practices and advanced stages of Kriya. Countless Kriya Yogis tracing their lineage back to Lahiri Mahasaya have continued to disseminate the ancient practice of Kriya Yoga to new disciples, in India and in the West. Through a combination of mis-communication and intentional alteration, however, most of what is taught as Kriya Yoga today is far from what was originally taught, often to the detriment of sincere practitioners.
