Making Transparent Soap: The Art of Crafting, Molding ...

When creating a transparent soap recipe, choose at least 75% hard oils (coconut oil, palm oil, tallow, lard, stearic acid). All of the solvents added can soften a recipe that contains lots of soft oils. Include castor oil in your recipe. Castor oil is a bit of solvent so works well in transparent soap.

Making Transparent Soap: The Art Of Crafting, Molding ...

Yes, the soap is cooked under pressure, but all it takes is following the instructions in the book where a sheet of plastic is bungeed over the soap-making pot and that pot is placed inside a bigger pot of boiling water. After cooking for a time, the soap is poured into molds and is ready to use as soon as it cools and hardens.

Making Transparent Soap: The Art Of Crafting, Molding ...

Alcohol □ According to C. Failor, it is impossible to make a transparent soap without alcohol. Or, it is possible, but such a soap loses its transparency with time. The best alcohol is denatured ethylalcohol of 90%. I add that you can use instead a propylene-glycol, which will make your soap meltable => you will obtain a meltable M&P soap base!

Recipes for making liquid soaps, including herbal shower gels, conditioning shampoos, moisturizing hand soaps, luxurious bubble baths, and more.

Transparent soap is simply hot process soap that uses solvents (sugar, glycerin and alcohol) to dissolve the soap crystals that form allowing light to pass, therefore creating transparency. When creating a transparent soap recipe, choose at least 75% hard oils (coconut oil, palm oil, tallow, lard, stearic acid). With basic ingredients and standard kitchen tools you can craft your own transparent soaps that are milder, richer, and creamier than any commercial product. Eschewing complex methods and expensive equipment, the author uses a simple, dependable process that makes beautiful transparent soaps every

time. The author's easy-to-follow photographic instructions are accompanied by proven recipes and plenty of suggestions for colorful and sweet-smelling variations. You'll soon be creating your own signature soap blends that deliver refreshing scents and are gentle enough for even the most sensitive skin.

TRANSPARENT SOAPMAKING is the first book ever written on the art of making "see-through" soap. Author and professional soapmaker Catherine Failor demystifies the process, sharing all the information and secrets necessary for making natural, luxurious transparent soap in your own kitchen.

This is the first book published with recipes, methodology and tips on how to make Melt and Pour Soap from Scratch. It is written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter, hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products. However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you the foundational information that you need and give you tips on how to customize your base.

This recipe book contains 50 recipes for cold process soap and 64 essential oil blends. Recipes include classics such as Oatmeal Lavender, Oatmeal Milk & Honey, Aloe & Cucumber and Pumpkin Spice. Some recipes are more unique, including Summit Soap, Yarrow Shave Soap, Pumpkin Lavender, Almond Orange and Mocha Mint. The recipes are categorized into seven categories including Basic Bars, Designed Recipes, Salt Bars, Bar Soap for the Face, Exfoliating Bars, For the Fellas and Alternative Liquids. Each recipe, except for those in the Basic Bars category, includes an essential oil blend and some contain additives for color or exfoliation. 20 more essential oil blends are listed at the end, giving you 64 blends total! Though it does contain basic steps, it is not an advanced soapmaking book and doesn't go into details on advanced soapmaking topics. The recipes and essential oil blends in this book are provided to inspire creative formulation on your part. Sure you can use a recipe as-is, but don't be afraid to experiment and change things up!

"Scientific Soapmaking" bridges the gap between the technical and craft literature. It explains the

# Where To Download Making Transparent Soap The Art Of Crafting Molding Scenting And Coloring

chemistry of fats, oils, and soaps, and teaches sophisticated analytical techniques that can be carried out using equipment and materials familiar to makers of handcrafted soap.

Do you know what is the advantage of natural handmade soaps and why more and more people create organic handmade soap at home with their own hands? First of all, it is a creative product, with a piece of your heart and soul. Soap crafting is an occupation for your soul and it brings joy and pleasure for those people who are engaged in this process. Soap produced in large volumes, in chemical industries, cleans so well, that it washes, along with dust and dirt, all the protective oils from our skin. And we end up with dry, prematurely aging skin. Our book with handmade soap recipes will teach you how to create the best handmade soap - a soap that contains natural oils and organic additives - honey, oats, calendula flowers, chocolate and more. Homemade soap is enriched with oils such as olive, sea buckthorn, peach, wheat germ oil and many more oils that have a moisturizing, rejuvenating and anti-cellulite effect. Easy natural homemade soap is a great and original gift, which hardly anyone could remain indifferent about. Natural ingredients, the basis of which skin handmade soap is created, have a beneficial effect on the skin. Natural handmade soap is devoid of drawbacks. Cleansing the skin with organic soap, you can get rid of peeling and dryness. By experimenting with different oils, you can create a soap that is suitable for your skin. Scrub effect, moisturizing effect, vitaminizing effect, anti-cellulite effect-all this is achieved by simply adding an ingredient. The aesthetic side is also important. With our recipes for homemade soap, you will find out how to create any shape: heart, flower, oval, car and so on. In addition, mixing colored masses, adding dry flower petals, using other methods of decoration, you can create a truly unique soap that will delight others and will be a real decoration of your bathroom. Homemade soap can be a powerful means of aromatherapy, because it often includes natural essential oils. Now it will not be difficult to create a soap with your favorite smell. Vanilla and lavender, Lily of the valley and lilac - the smell of soap made with your own hands, will be totally unlike the "chemical" smells of soap made industrially. So once again the advantages of natural handmade soap include: 1. Clear skin; 2. Hydration and nutrition, thanks to natural oils; 3. Aromatherapy while using soap; 4. Aesthetic pleasure; 5. Making your own choices in creating handmade soap, you are able to choose an eco-friendly product. If you are looking for the best recipes for handmade soap, for a soap making book with step by step instructions for the cold soap making process, how to design, wrap and store homemade soap, and of course how to choose the best natural ingredients and lye, You ARE AT THE RIGHT PLACE! Just one-click and you will get the full info for soapmaking from a professional!
