Medical malpractice trials are the culmination of an often arduous and adversarial lawsuit process. Once a case actually goes to trial, months or sometimes years of pre-trial investigation is brought to bear in an attempt to prove that a physician breached the medical standard of care and caused you to be injured.

~~Trial Process in a Medical Malpractice Lawsuit | AllLaw~~

There aren't a lot of hard numbers about how many medical malpractice cases end in a trial, but it is safe to say that most do not go to trial. In a study by the U.S. Bureau of Justice Statistics, only about 7 percent of medical malpractice cases end in a trial in which a jury determines the verdict. That means 93 percent of these types of claims are resolved before a trial.
