Mitch Albom creates his most unforgettable fictional character—Frankie Presto, the greatest guitarist to ever walk the earth—in this magical novel about the bands we join in life and the power of talent to change our lives. In his most stunning novel yet, the voice of Music narrates the tale of its most beloved disciple, young Frankie Presto, a war orphan raised by a blind music teacher in a small Spanish town. At nine years old, Frankie is sent to America in the bottom of a boat. His only possession is an old guitar and six precious strings. But Frankie's talent is touched by the gods, and his amazing journey weaves him through the musical landscape of the 20th century, from classical to jazz to rock and roll, with his stunning talent affecting numerous stars along the way, including Hank Williams, Elvis Presley, Carole King, Wynton Marsalis and even KISS. Frankie becomes a pop star himself. He makes records. He is adored. But his gift is also his burden, as he realizes, through his music, he can actually affect people's futures—with one string turning blue whenever a life is altered. At the height of his popularity, Frankie Presto vanishes. His legend grows. Only decades later, does he reappear—just before his spectacular death—to change one last life. With its *Forest Gump*-like romp through the music world, *The Magic Strings of Frankie Presto* is a classic in the making. A lifelong musician himself, Mitch Albom delivers a remarkable novel, infused with the message that "everyone joins a band in this life" and those connections change us all.

"Frankie - A Life Cut Short" is a historic, nonfiction story of the Life and Unsolved Murder Mystery of Frances S. Bullock, an attractive 40-year-old widow, who was brutally stabbed to death at her home July 26, 1963. The homicide happened in the small mountain town of Franklin, North Carolina and remains unsolved over fifty-five years

later. The story reveals much about the victim's family's history including her childhood and adult life that might have led to her untimely death. In addition to the murder it also reveals some domestic violence and abuse that frequently occurred in the lives of some of the persons-of-interest in the case. The book describes in detail recent attempts at solving it as a cold case investigation and re-examination of the evidence of the clothing worn by the victim when murdered.

“A joy to read—a portrait of a place, a way of life, and a marriage by a reporter who turns out to be the world’s last extant romantic” (Joan Didion). In this Tracy-Hepburn romance, a sophisticated New York intellectual is charmed by a down-to-earth newspaperman. Frankie’s Place is the tale of a summer cottage and the story that unfolds under its roof. Jim Sterba is the down-to-earth newspaperman who charms the New York sophisticate, Frances FitzGerald, after several visits to her writer’s retreat on the coast in Maine. Frankie’s place is a secluded little house out of harm’s way and the clamor of the modern world. Icy plunges into the Somes Sound christen their island mornings; then there is a long period of dutiful writing followed, in the late afternoon, by rigorous mountain walks, forays for wild mushrooms, and sailing. In the evenings Jim and Frankie prepare simple island meals as they talk about everything from the stories or books they’re working on to the bigger issue of Jim’s reunion with his long-lost father. Although they couldn’t have had more disparate childhoods—Jim grew up on a struggling Michigan farm while Frankie lived in a Manhattan town house and an English country estate—their shared summer rituals have them falling in love before our eyes. “A highly entertaining tale of love, family, and place . . . It took me places I hadn’t expected to go. I loved it.” —Tom Brokaw
